

Information about reduced price for kindergarten

If your family's income is below 559.167 kr per year before taxes, then you have the right to reduced price for kindergarten.

Some children are also entitled to 20 hours of free kindergarten per week. This applies if your child is born in 2017 or 2018 and the family's income is below 693.200 kr per year before taxes. This also applies if your child is born in 2019 or 2020 and your family's income is below 598.825 kr before taxes.

If you have more than one child in kindergarten, then you get an additional discount that is automatically calculated. You do not need to apply for this.

To qualify for the reduced price, you must apply before the **30th of June**.

Have you applied before?

If you have received an information letter from us regarding an automatic application for you this year, you do not need to do anything. If necessary we will contact you.

In the case that your family's total income is lower than that shown in the tax return for 2021 or if you no longer wish for your application to be evaluated, you must contact the district where your kindergarten is located.

If you have not heard from us within the **6th of May** and you still want a reduced price, you must apply again before the **30th of June**.
